punishment.

It seems that some of the prominent men in the Alliance desire to belong to two political parties. Some man talking through the Columbia Journal a few days ago, says that the Alliance will stick to the State Democracy, but in national politics it will go with the Populists. Well, where will we, who want to be Democrats out and out, Democrats in national affairs as well as State affirs, go? The Populists of this State will find it a pretty inconvenient thing to hold between 30,000 and 40,000 white voters in a Third Party organization under the disgoise of Democracy, merely to sustain the name of Democracy in State politics.

THE Democratic platform is very clear in its promise to maintain the parity between gold and silver,-that was its clear, unmistakable enunciation to the people, and it will be guilty of a breach of good faith with the money of actual transactions." people if it pursues any other policy. The promise is made to coin gold and silver without discrimination against either. Silver is now worth about 58 cents, and in order to re-establish the parity between the two metals, , 42 cents more of silver should be put in a silver dollar, and this would make | ter Chinese trade have all followed. the ratio about 25 to 1, instead of 16 to 1. If this is done, then very few men would object to the free coinage. It is absurd to talk about the amount of silver in a dollar having nothing to the stamp of a dollar in a nickel, and issue in the last campaign, and the do with the question. Why not put call it a dollar?

Go to the Root of the Evil.

The country is waiting with a great extraordinary session. Mr. Cleve- ing anxiously towards Washington. land has won the confidence of the country, and many of us consider him a man far above the trials of the principles merely for personal success, Mass., says: "It is no more a sin than at d got to Richmond early in the day. up to where the wounded were left have to say concerning the situation of the country will be read with great interest.
